Walkers, please note that there is construction on Wabasha Street Bridge, but we have been assured that the bridge will be open for pedestrians to walk across. If you are not walking there will be a shuttle leaving at 5:45pm from the hotels.

- 5:30/5:45pm: Begin walking to Padelford boat dock from hotels
- 5:45pm sharp: Shuttle departs from Crowne Plaza hotel to Padelford boat dock
- 5:45pm sharp: Shuttle departs from Holiday Inn hotel to Padelford boat dock
- 6:00pm: Boarding begins
- 6:30pm sharp: Boat leaves the dock (the boat will not wait)
- 6:30pm: Nano demonstrations on the boat (dinner served at 7:15pm)
- 9:30pm: Boat returns to dock; return shuttles will be provided back to hotels

# Evening Demos and Activities on the Padelford boats

---

The following demos and activities will be taking place on the Padelford boats between 6:30pm and 7:15pm:

## Betsey Northrup Boat (front boat)

- **Diamonds: The Science Beneath the Beauty**  
Explore some of the amazing properties of diamonds that make them a nanotech engineer's best friend  
David Sittenfeld & Karine Thate, Museum of Science, Boston, MA
- **Nano in 5 minutes**  
Get a quick and easy introduction into the world of nano through our Bumpy, Sticky, and Shaky prototype  
Andrew McGarrahan & Paul Freiling, St Louis Science Center, St Louis, MO
- **Tasty Self Assembly**  
Come make an edible, self assembled gel cap then put it in your drink and be amazed  
Frank Kusiak, Lawrence Hall, Berkeley, CA
- **I Spy Nano**  
Test your observation skills against your friends and colleagues in this NanoDays favorite  
Kevin Dilley, Sciencenter, Ithaca, NY

## Anson Northrup Boat (rear boat)

- **Macro, Micro and Nano Stretch-Ability**  
Come twist and stretch your macro body after a full day's meeting  
Keith Ostfeld, Children's Museum of Houston, Houston, TX
  - **Alice in Nanoland**  
Stop by to see how two of our partners have adapted the Alice in Nanoland story into an interactive theatrical performance with costumes, props and more.  
Kevin Delaney Museum of Discovery, Little Rock, AR and Sarah Zimmerman, Port Discovery, Baltimore, MD
  - **Superpowers**  
Nano activities to support the 2015 Library Summer Reading Program  
Betty Jones & Meriel Stokoe, The MOST, Syracuse, NY
-
