

High Five for the Future

*Help make a more
sustainable world!*

High Five for the Future

Make a pledge toward a more sustainable world!

Try this!

Think of something you can do to help create a more sustainable world, now or in the future. Write it down or draw a picture of it on the whiteboard.

Take your photo in front of the backdrop. You can share your idea and your photo on social media! **#high5future**

In your photo, you can hold up the whiteboard, or give a high five to a kid from the future! Sometimes people give each other a high five when they've done a good job. When you do something sustainable, it helps kids today *and* kids in the future! What can you do now that would get a high five from a future kid?
