MEETING GOALS

To inspire confidence and build capacity for partners to engage bilingual audiences in nanoscale science, engineering, and technology (nano).

As a result of participating in the workshop, professionals will:

1. Develop a rationale for engaging bilingual audiences in nano, and see bilingual work as an emerging practice.
2. Build awareness of and facility with educational and professional tools and strategies (both NISE Net and outside resources), to better engage bilingual audiences.
3. Connect with other professionals engaged in bilingual work by sharing personal experiences and learning together.
4. Identify opportunities for action by problem solving challenges and articulating next steps.
