

Does life exist beyond Earth?

Imagine an alien life form that lives on a far-off world. Where does your alien live? Is it hot or cold, dry or wet? How is your creature especially well suited to its environment?

When you imagine life on another planet, you're doing a little bit of science! Researchers use our knowledge about life on Earth to make predictions about what a habitable extraterrestrial planet might be like, and what kind of life could survive there.
