

Ways to Use Resources

The National Informal STEM Education Network is a community of informal educators and scientists dedicated to supporting learning about science, technology, engineering, and math (STEM) across the United States. NISE Network brings people together to engage in STEM, understand our world, and build a better future for everyone.

Hands-on STEM Activities

Easily browse and download activity digital materials by topic and theme.
nisenet.org/browse-topic

Seasons and Holidays

Ideas for incorporating STEM content into annual events and special programs: Halloween, summer, snowflakes.
nisenet.org/seasons

Professional Learning Topics

Increase your capacity to engage the public; formats include online workshops, training videos, tips sheets, and written guides.
