

Neuro Futures Card Game

Printing Instructions

Neuro Futures Technology Cards or Neuro Futures People Cards (PDF)

These **double-sided cards** can be printed easiest using the **booklet format** found in the print dialog box. Be sure to select **Both sides** in the subset and **Left** for binding. A screenshot from Adobe Acrobat on Windows is provided as reference. Cut out individual cards with scissors or a paper cutter. Cardstock and/or lamination is suggested for durability.

If you are getting the cards professionally printed then you can send the PDF files marked with **pro** to the print shop. These files include bleed and crop marks.
