

Neuro Futures Championship Game

Printing Instructions

Neuro Futures Championship technology images (PDF)

These game images are **not double sided**. Print them using a single-sided print option. Cut out individual images with scissors or a paper cutter. Cardstock and/or lamination is suggested to help with repeated use on the bracket board. If you are getting the images professionally printed then you can send the PDF file marked with **pro** to the print shop. This file includes bleed and crop marks.

Neuro Futures Championship bracket board (PDF)

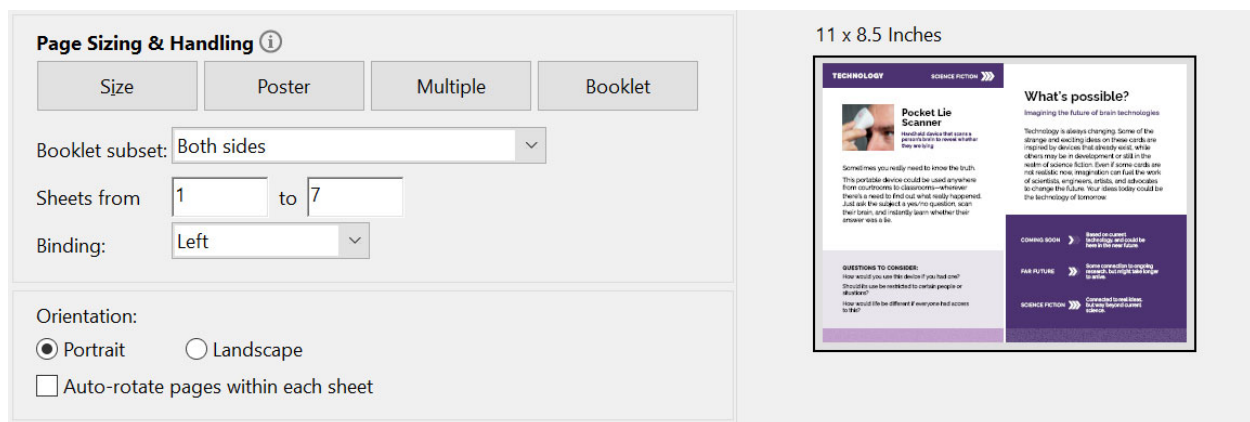

This is a full 4ft by 3ft poster version of the bracket board. You will need a large-format printer to print this file at full size. If you are getting the poster professionally printed then you can send the PDF file marked with **pro** to the print shop. This file includes crop marks.

Neuro Futures Championship blank question sheet (PDF)

Use a printer with tabloid-sized paper (11 × 17 inches) to print this file. This will ensure the new question covers the standard question printed on the bracket board.

Neuro Futures Technology Cards (PDF)

These **double-sided cards** can be printed easiest using the **booklet format** found in the print dialog box. Be sure to select **Both sides** in the subset and **Left** for binding. A screenshot from Adobe Acrobat on Windows is provided as reference. Cut out individual cards with scissors or a paper cutter. Cardstock and/or lamination is suggested for durability.

If you are getting the cards professionally printed then you can send the PDF file marked with **pro** to the print shop. This file includes bleed and crop marks.
