

Artist Challenge:

Child: Draw a picture of a new character that doesn't exist in the video—it can be anyone or anything!

Adult: Collaborate with your young artist! Create your own character to add to the story as well.

Both: Share your characters with each other and why you would like them to be there. Do you notice any similarities or differences between your characters?

Director Challenge:

Child: Write a short story, act out a quick play, or draw a picture of what you would like to happen next in the story. Make it as wild and crazy as you want!

Adult: Collaborate with your young director! Express yourself—choose one of the options that your child didn't choose and add to their creative ideas. For example, if they chose to draw a picture, try writing a story that explains what they are drawing and adds some of your own original ideas as well!

Both: Share your creation with a friend or someone else who didn't help make it.

Inventor Challenge:

Child: Invent something new to help out one of the characters in the story! Use different materials to make a prototype of your new invention. Be as wild and crazy as you can!

Adult: Collaborate with your young inventor! Be an assistant for your young inventor as they share their creative vision with you, or create your own invention and combine it together with your child's creation to make one super invention!

Both: Share your invention ideas with each other and say why you decided to make what you did. How does it help the characters in the video you watched?

Musician Challenge:

Child and Adult: The band is back together! Create a song or dance together that represents what the video you watched means to you. It can be silly, serious, or whatever you like. It's ok if you are feeling shy—remember you have a partner who is doing it with you!
